

## Equine Influenza Notice

Erwood Show Committee **strongly advises** that owners/breeders/loanees of all equines (other than foals under 6 months old) who intend attending the Erwood Show 2019, have their exhibits properly vaccinated against equine influenza. We would **advise** that you consult with your own veterinary practice for guidance and advice.

The Erwood Show Committee **strongly advise** that all equines are vaccinated accordingly to protect their own equine and that any exhibit displaying any symptoms or signs of ill-health do not enter the Showground.

Please only attend the Show if your equine is fit and well on the morning of the Show prior to departure.

We wish to remind all exhibitors that they attend Erwood Show at your own risk and should give consideration to all when assessing your equine to be fit to attend.
